SUMMARY

Visual Creator and aspiring UI/UX Designer with hands-on experience in video production, graphic design, and digital branding across broadcast, e-commerce, and social media platforms. Proficient in Adobe Premiere Pro, Audition, CorelDraw, Etc. With growing expertise in UI/UX design tools such as Figma and Google Stitch. Built and scaled a personal e-commerce brand (RazzETC) from visual identity to market launch, applying consistent design system principles across digital touchpoints, and produced broadcast-quality video content for Jogja TV and weekly podcast content for PT Nusantara Trade Center. Particularly drawn to designing visual identities and user experiences for Web3 and blockchain-based platforms, combining strong design fundamentals with curiosity for emerging digital ecosystems. Graduating with a S.Kom degree in Informatics from Universitas Amikom Yogyakarta (July 2026, GPA 3.5/4.0).

WORK EXPERIENCE

Video Editor **Feb 2022 - Present**

Jogja TV (3-month internship) :

- Edited a minimum of 2 broadcast-ready news video segments daily, consistently meeting tight daily deadlines while maintaining broadcast-quality visuals and clear narrative storytelling.

PT Nusantara Trade Center :

- Produced 4 full-cycle video podcasts weekly, managing on-location shooting, editing, and final delivery and repurposed each episode into 6-8 short-form clips (24-32 clips/week) for distribution across YouTube, TikTok, and Instagram.
- Designed custom YouTube thumbnails for every podcast episode to improve click-through rate and maintain visual consistency across the channel.
- Adapted editing pace, format, and visual style across platforms (long-form YouTube vs. short-form TikTok/Instagram), increasing weekly content output while preserving platform-specific engagement quality.

Graphic Designer **Oct 2022 - Present**

QYN Store (E-Commerce) Jersey Designer :

- Designed jersey graphics and apparel visuals for an e-commerce brand, translating client briefs into print-ready designs that aligned with brand identity and market trends.

RazzETC. Founder & Brand Designer (Personal Brand)

- Built a personal e-commerce brand from the ground up, including logo, visual identity system, and product photography direction, to establish a recognizable presence in the marketplace.
- Designed social media templates and promotional visuals to support product launches and maintain consistent brand presentation across digital channels.

Freelance Designer & Video Editor

- Delivered visual design and video editing services for independent clients, managing creative workflows end-to-end from brief to final delivery while maintaining consistent quality and turnaround time.

UI/UX Designer & Social Media Specialist
Munk Studio (Co-Founder)

Sept 2025 - Present

- Co-founded Munk Studio, a 3-person creative studio providing website and application design services for external clients.
- Led end-to-end UI/UX design process, from initial concept and wireframing through to interactive, responsive prototyping in Figma and Google Stitch for client website and application projects.
- Managed Instagram as the studio's primary social media channel, creating visual content and overseeing posting strategy to support client acquisition and brand visibility.
- Occasionally assisted with frontend implementation (HTML, CSS, JavaScript, React) for client projects, bridging design and development to ensure designs were implemented as intended.
